Projects

Ensaa.ma - Website for ADE, Clubs, and the ENSA Community ⧉
Ensaa.ma is a user-friendly website, made for ADE, clubs, and the ENSA community. It offers news updates, ADE and clubs' info, press releases, and a school guide. We prioritize user experience, making interaction easy and engaging.
Skills: scss · Figma (Software) · Next.js · Git · GitHub

BitCheck - Bot Discord and Web App NFT ⧉
BitCheck is a comprehensive user management solution via a Discord bot and a dedicated web application. Specifically designed for NFT communities, the project integrates features such as NFT ownership verification, wallet linking, and information updates directly from the Discord server.
Skills: Node.js · Discord.js · MongoDB · Next.js · Figma (Software) · Git · GitHub ·

E-learning website ⧉
The e-learning platform offers a dynamic online education experience with a variety of interactive courses. It provides a user-friendly and responsive interface, accessible from various devices, for simplified continuous training.
Skills: Figma (Software) · React.js · .Net · SQL Server · Git · GitHub · C#

Shopopia - E-commerce Web Application ⧉
Shopopia is a dynamic and feature-rich e-commerce web application designed to provide users with a seamless online shopping experience.
Skills: Api · Vue.js · Nuxt.js · JavaScript · Tailwind CSS

Restaurant Desktop Application ⧉

This project aims to create a user-friendly and feature-rich desktop application, The administrator interface provides a set of functionalities for managing employees, the menu, and other elements related to the application. Upon login, the administrator is directed to the main dashboard where they can access all available features. Each section is represented by an icon or corresponding label for quick identification. This enables the administrator to efficiently manage employees, the menu, and other aspects, making day-to-day management tasks easier.

Skills: Java Database Connectivity (JDBC) · JavaFX · css · MySQL · Java

FancyFootwear - Online Shoe Store Website ⧉

FancyFootwear is a fully functional online shoe store website that I've developed to showcase my skills in web development. This project serves as a testament to my ability to create visually appealing and user-friendly e-commerce platforms that provide customers with an immersive shopping experience for footwear.

Skills: Node.js · Express.js · axios · MongoDB · Vue.js · JavaScript

ClimaView - Weather Website ⧉

ClimaView is a weather website that provides users with up-to-date weather information and historical data for different locations around the world. The website utilizes the OpenWeatherMap API to fetch weather data, ensuring that it is accurate and reliable.

Skills: Api · css · JavaScript · HTML

Skills

| GIT | Github | Javascript | Java | React.js | Next.js | HTML | CSS |

| TailwindCSS | MongoDB | SQL | Node.js |

Certificates

- HTML, CSS, and Javascript for Web Developers - John Hopkins University - Coursera ⧉
- Version Control - Meta - Coursera ⧉
- Introduction to Front-End Development - Meta - Coursera ⧉
- Programming with JavaScript - Meta - Coursera ⧉
